What Our Clients say

Human Resources Director for Asia Pacific
U.S.-based manufacturing enterprise

"The pre-workshop learning modules and the one-on-one Hogan Development Feedback facilitated by MGP's consultant were intended to provoke thought and encourage me to bring questions to the workshop. The participants were very engaging, and the workshop content consisted of both theoretical and practical components. This inspired participants' passion for learning, and motivated them to join the discussions."

"The Hogan Certification Workshop conducted by MGP was one of the very few courses that really exceeded expectation."
